We must give them security and the rights of citizens in a democratic State. If we fail to do so, we shall have a festering sore which will eventually poison the whole body politic and probably destroy it.

While the cold war was an outcome of the emergence of the US and the USSR as two superpowers rival to each other, it was also rooted in the understanding that the destruction caused by the use of atom bombs is too costly for any country to bear. The logic is simple yet powerful. When two rival powers are in possession of nuclear weapons capable of inflicting death and destruction unacceptable to each other, a full-fledged war is unlikely.
